

# Quality Education Built on High Standards

Thousands of interprofessional oncology care team members participate in National Comprehensive Cancer Network® (NCCN®) Continuing Education (CE) programs annually. These dynamic educational activities are **designed by experts and world-renowned faculty** to promote learning and practice change.

Learning activities meet high standards for objectivity and scientific rigor and focus on helping participants apply the latest evidence from the NCCN Clinical Practice Guidelines in Oncology (NCCN Guidelines®) in everyday practice. NCCN's nationally accredited CE programs use an outcomes process to positively impact patient care.

# Team-Based Learning Focused on Patients

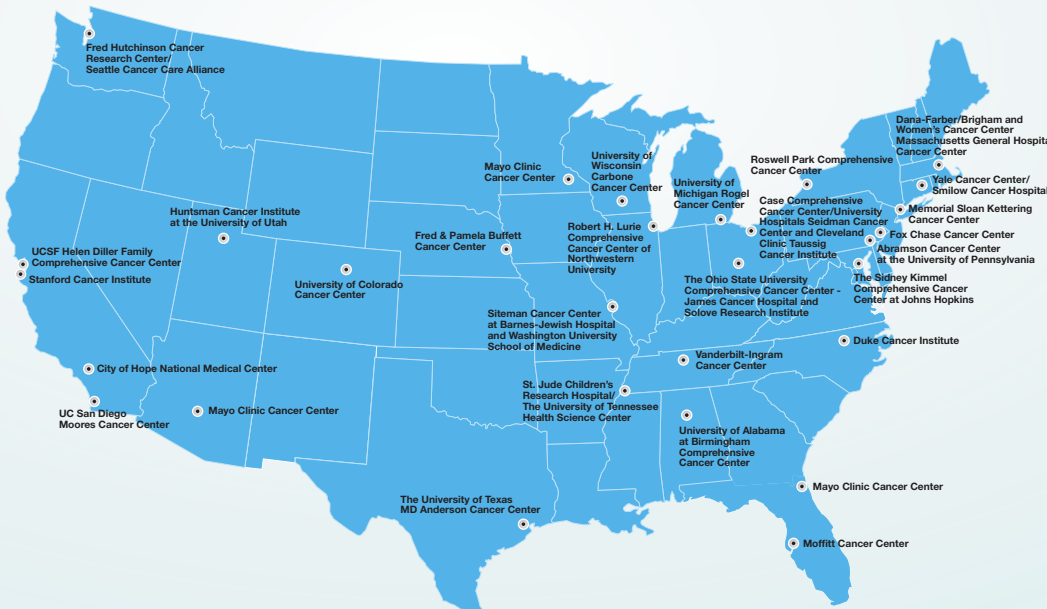

JOINTLY ACCREDITED PROVIDER™  
INTERPROFESSIONAL CONTINUING EDUCATION

NCCN's CE activities cover **more than 30 areas of cancer care** through live webinars, online webcasts, and articles in *JNCCN*, educating learners about advances in oncology to **promote high-quality care**.

In 2018, NCCN was awarded Joint Accreditation for Interprofessional Continuing Education, which demonstrates that NCCN CE activities are planned and implemented by and for the health care team and designed to improve **interprofessional collaborative practice** in health care delivery.

# NCCN Member Institutions

The National Comprehensive Cancer Network® (NCCN®) is a not-for-profit alliance of 28 leading cancer centers devoted to patient care, research, and education. NCCN is dedicated to improving and facilitating quality, effective, efficient, and accessible cancer care so patients can live better lives. Through the leadership and expertise of clinical professionals at NCCN Member Institutions, NCCN develops resources that present valuable information to the numerous stakeholders in the health care delivery system. By defining and advancing high-quality cancer care, NCCN promotes the importance of continuous quality improvement and recognizes the significance of creating clinical practice guidelines appropriate for use by patients, clinicians, and other health care decision-makers around the world.
